Caldervale Technology Group.

Caldertech
making the right connections

Helping you make the
right connections.

Our Products

Caldertech offers over 200 products for all your electrofusion and butt welding needs. Our core products include electrofusion and butt welding machines for connecting HDPE pipes, plus all associated tooling for preparing, clamping and maintaining pipe networks.

In addition to our core products we offer a range of specialised tools for the water, gas and steel pipe industries.

The majority of the products in this publication are designed and manufactured in the United Kingdom following the highest quality standards and safety regulations.

Helping you make the right connections.

Our History

For over 30 years, Caldertech and Fusion Equipment, part of the Caldervale Technology Group, have been pioneers in offering complete solutions for joining HDPE pipework through electrofusion and butt fusion products and tools.

Founded in the early 1980s and with its Head Office in West Yorkshire, UK, the Caldervale Technology Group now has global presence and an international reputation for high quality and innovative products for the joining of plastic pipework through its companies Caldertech and Fusion Equipment.

Electrofusion Welding Machines

An Introduction to Our Welding Machines

Our comprehensive range of electronically controlled Electrofusion Welding Machines are guaranteed to supply the correct amount of energy to produce a quality electrofusion joint on couplers, reducers, tee sections, branching saddles and service offtakes.

Containing state of the art control circuitry, the Calder range of welding machines have the option of downloading comprehensive fusion data by USB data stick or transmitting it together with photographic evidence in real time using a mobile phone and our original app CalderSafe® Mobile.

The weld data reporting package can then be analysed with our desktop software application CalderSafe® Weld Data Analyser. Most models can also send data and mobile telephone derived images for remote inspection via the Control Point process.

KEY

Approved to UK Gas Industry Standard GIS/ECE1 Electrofusion Control Boxes.

Approved to UK Gas Industry Standard GIS/PL2 Part 3 Butt Fusion Machines and Ancillary Products.

Approved to UK Gas Industry Standard GIS/PL2 Part 5 Electrofusion Ancillary Tooling.

Approved to UK Gas Industry Standard GIS/PL2 Part 7 Squeeze Off Tools and Equipment.

Conforms to International Standards Organisation ISO 12176-2 Electrofusion.

Conforms to International Standards Organisation ISO 12176-1 Butt Fusion.

Indicates pipe wall thickness.

Indicates pipe diameter.

The Do's and Don'ts of Electrofusion Jointing

Pre Jointing Checks

- Always use equipment that is in good condition, regularly maintained and within its calibration/service period if appropriate.
- Mechanical scraping tools should be used whenever possible, the cutting tips should be regularly inspected and swapped when worn.
- Check that you have the correct positioning clamps, they are complete and in good condition.
- Ensure that all tools and equipment are appropriate for the complete range of pipe sizes being joined.
- Check that you have somewhere clean and dry to place tools and equipment during the jointing process.
- When taking power from a portable generator, ensure that it is running correctly and has sufficient fuel to complete the fusion and cooling cycle.

Do's

- Fully understand the process of electrofusion (refer to pipe and fitting/equipment manufacturers' guidelines if in doubt).
- Use weather shelter and groundsheet to protect components being joined from contamination.
- Use pipe end covers where possible.
- Always enter your details into the fusion welder if the box requests this, your operator code and job reference will allow full traceability.
- Always use positioning clamps and pipe end re-rounding tools to correctly prepare and assemble the joint.
- Ensure the welder output voltage is compatible with fitting.
- Ensure pipe and fittings to be joined are compatible with each other.
- Before assembling socket joints, cut pipe ends as square as possible, preferably using a mechanical pipe cutting device, ensure both pipe ends are "stabbed" fully into the socket and make contact with the fitting centre register.
- Fully scrape the pipe or spigot ends to be joined using a mechanical scraping tool, the scraped length must exceed the insertion depth of the pipe, hatching the pipe surface to be removed with a marker pen helps to ensure complete removal.

- Keep scraped surfaces clean and where possible assemble the joint immediately after scraping.
- When using Fusamatic fittings in the automatic mode, ensure that the fusion welder is Fusamatic capable, and the polarity of the output lead connector plugs are correctly connected, i.e. Red plug to Red pin.
- Ensure that the fusion weld time shown on the welder display matches the fusion time shown on the fitting or packaging, if they are different discontinue the weld, replace fitting with new bagged fitting or input fusion time manually.
- It is permissible for the time shown on the fusion welder display to be slightly different from the time shown on the fitting or packaging.
- Ensure that the correct fusion time and cooling time are adhered to.
- Ensure that the fusion indicators have risen by completion of the weld cooling time, if not cut out the weld and repeat. Drilling or cutting through a fitting or pipe should only be carried out following required quality inspection and pressure testing.

Don'ts

- When using a portable generator, never start the engine with the fusion welder power lead connected to the power output sockets.
- Do not commence an electrofusion joint unless it can be completed without interruption.
- Do not attempt to use a fusion welder within an excavation.
- When working within U.K. specification WIS 4-32-07 under no circumstances should a second fusion cycle be attempted on any fitting.
- Incomplete, interrupted, failed or aborted fittings should always be cut out, bagged and recorded for submission to a supervisor for inspection.
- Do not use dirty, contaminated or fittings from split or torn bags, or touch previously prepared surfaces.
- Do not leave fittings out of their protective bags or remove them from their bags until immediately prior to use.
- Avoid previously prepared surfaces from becoming wet or damp
- Do not remove clamps from fittings until the cooling time has elapsed.
- Do not remove integral cutters from self-tapping saddles once the connection has been drilled

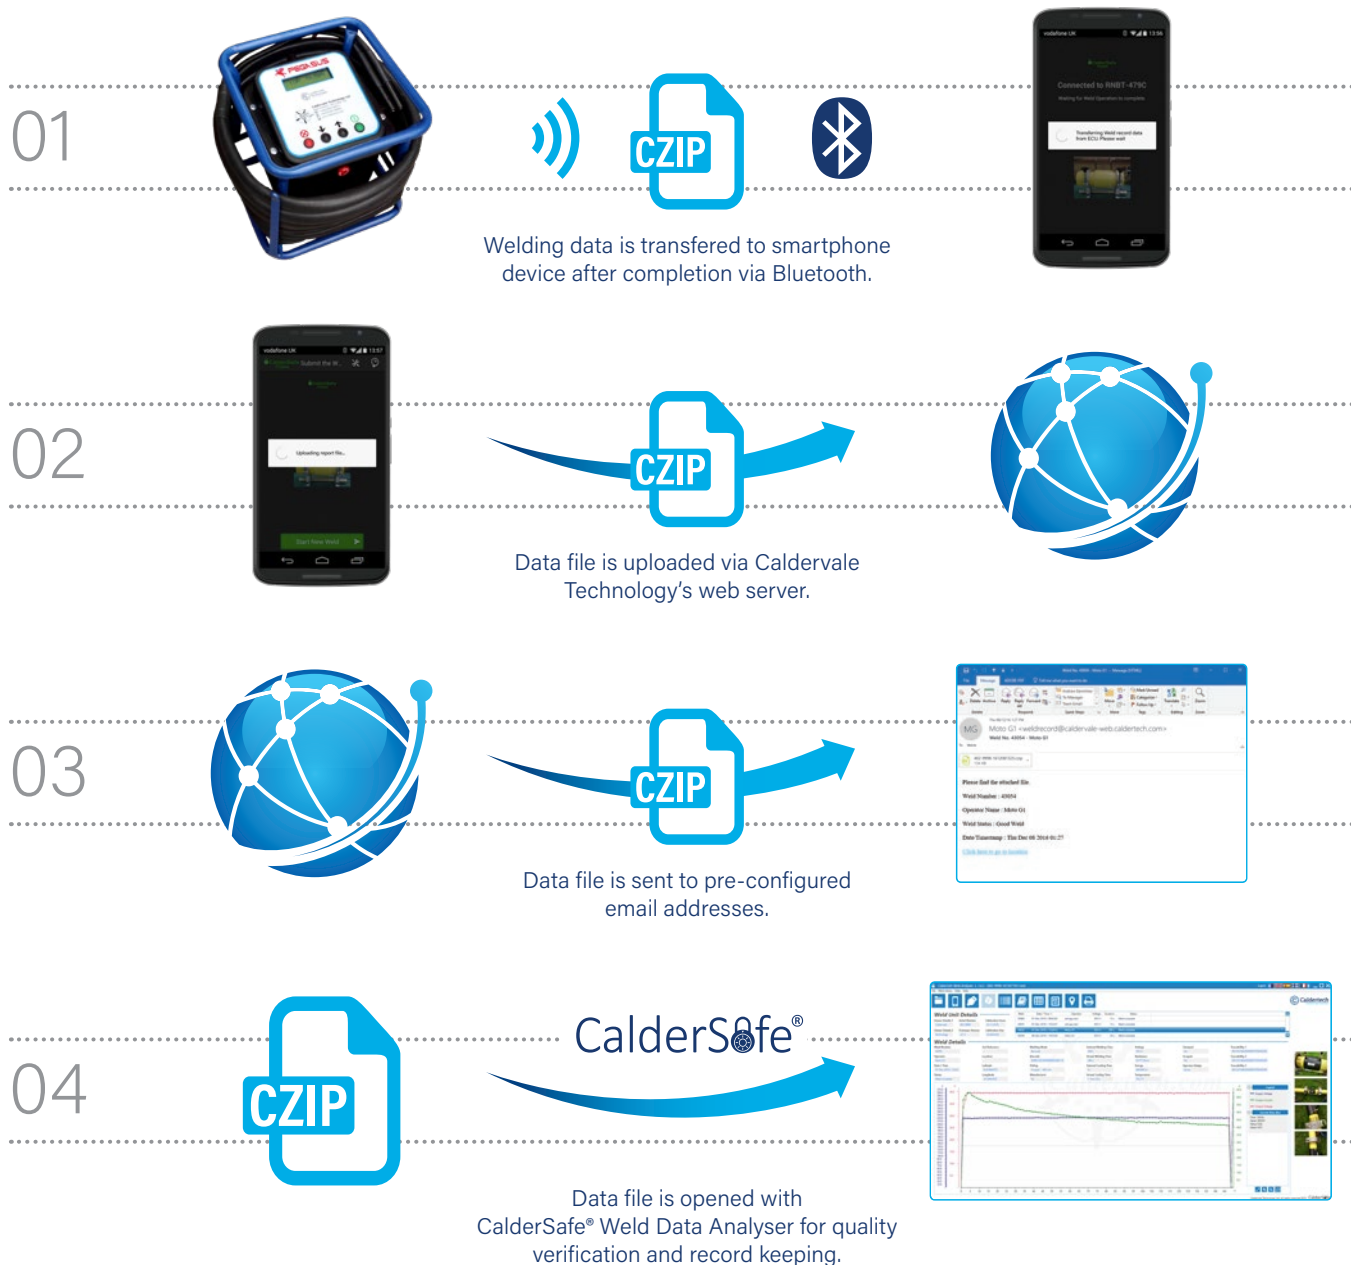

CalderSafe® Mobile

CalderSafe® Mobile is the latest technology available to analyse real-time weld data from the job site. Using the smartphone app, simply pair with the welder via Bluetooth, send the data to your desired email addresses and open it with the CalderSafe® Weld Data Analyser software.

FEATURES

- Oversee, record and approve joints from a distance
- Capture GPS location of fused fittings
- Send weld data to 4 email addresses
- View up to 4 images or angles of the joint
- 124 point weld graph and mass data charts
- Print summary or individual weld records
- Download CalderSafe® Mobile from Google Play

CALDERSAFE® MOBILE AT A GLANCE

Calder Nomad II

The Calder Nomad II is a portable battery powered unit for welding fittings up to 63mm. With manual input weld times, it is capable of welding 28 x 32mm conventional fittings on 2 fully charged batteries and featuring its high strength "Pelican" plastic case, it is as strong as it is reliable.

FEATURES

- Fully portable, allows freedom of movement and lower operation costs
- Fitting size range 16-63mm Ø
- Choice of terminal sizes
- High Strength "Pelican" Plastic Case
- No generator required
- Complete kit comes with 2 x batteries, battery charger unit and detachable output lead

Technical Specification

| | |
|-------------------------------------|---------------------|
| Coupling Size Range | 16-63mm Ø |
| Dimensions [HxWxL] | 400 x 330 x 170mm |
| Weight | 17kg |
| Case Material | ABS Plastic |
| Input Voltage | 36v DC Battery Pack |
| Output Voltage [Vac RMS] | 39.5v |
| Output Current [Continuous Aac RMS] | 1-25A DC |
| Power Consumption | 40-1000W |
| Environmental Protection | IP54 |

Product Details

| Code | Item Description |
|-----------|--|
| 01-01-013 | Nomad fusion welder kit |
| 01-01-262 | Nomad fusion welder only |
| 01-01-260 | Battery charging unit, with plug |
| 01-01-261 | Spare lead / acid battery pack wired, with connector |

Calder Griffon™ + Calder Griffon™ HC

The Calder Griffon is lightweight and capable of fusing all conventional brands of fittings up to 200mm. Using a high volume cooling fan, it provides reliability for welding in all conditions and offers CalderSafe® Weld Data Analyser and Bluetooth connectivity for CalderSafe® Mobile.

Calder Griffon

Calder Griffon HC

Duo Terminal Option Available

FEATURES

- Barcode scanning and manual time entry
- Fitting size range 16-200mm Ø
- 3.5m output lead
- Choice of terminal sizes
- Data recording of 2,000 welds
- CalderSafe® Weld Data Analyser
- Simple symbolic display
- Terminal adapters supplied

OPTIONAL

- Automatic coupling recognition Fusamatic / Plasson
- Control Point - Blue Box Data Technology
- CalderSafe® Mobile Weld Analyser
- Dual sized output terminals

Technical Specification

| | |
|-------------------------------------|--|
| Coupling Size Range | 16-200mm Ø |
| Dimensions [HxWxL] | 275 x 215 x 385mm (w/ Carry Bag) 340 x 320 x 570mm (w/ Hard Case) |
| Weight | 12kg (w/ Carry Bag) 16.5kg (w/ Hard Case) |
| Case Material | ABS Plastic |
| Mains Input Cable Length | 3.5m |
| Fusion Output Cable Length | 3.5m |
| Input Voltage | 110v or 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 16A (110v) / 8A (230v) |
| Input Power | 3450VA |
| Output Voltage [Vac RMS] | 8-48v |
| Output Current [Continuous Aac RMS] | 30A |
| Environmental Protection | IP54 (w/ Carry Bag) IP55 (w/ Hard Case) |
| Data Recording Capacity | 2000 Records |

Product Details

| Code | Item Description |
|-----------|--|
| 01-01-480 | 110v Griffon, with barcode scanner, carry bag |
| 01-01-485 | 110v Griffon HC, with barcode scanner, protective hard case |
| 01-01-481 | 230v Griffon, with barcode scanner, carry bag |
| 01-01-486 | 230v Griffon HC, with barcode scanner and protective hard case |
| 01-01-295 | CalderSafe® Mobile Weld Analyser |

Calder Pegasus™

The Calder Pegasus gives you functionality, reliability and affordability, capable of welding all conventional brands of fittings up to 630mm. With automatic fitting recognition, barcode scanning and manual data entry options, this welder is an industry standard.

Duo Terminal Option Available

FEATURES

- Barcode scanning and manual time entry
- Fitting size range 20-630mm Ø
- 4m output lead
- Choice of terminal sizes
- Data recording of 2,000 welds
- CalderSafe® Weld Data Analyser
- Simple symbolic display
- Terminal adapters supplied

OPTIONAL

- Automatic coupling recognition Fusamatic / Plasson
- Control Point - Blue Box Data Technology
- Double insulation
- CalderSafe® Mobile Weld Analyser
- Dual sized output terminals

Technical Specification

| | |
|-------------------------------------|-------------------------------|
| Coupling Size Range | 20-630mm Ø |
| Dimensions [HxWxL] | 320 x 340 x 340mm |
| Weight | 23kg |
| Case Material | ABS Plastic |
| Mains Input Cable Length | 10m |
| Fusion Output Cable Length | 4m |
| Input Voltage | 110v or 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 30A (110v) / 16A (230v) |
| Input Power | 3.3kVA (110v) / 2.8kVA (230v) |
| Output Voltage [Vac RMS] | 8-48v |
| Output Current [Continuous Aac RMS] | 60A |
| Environmental Protection | IP54 |
| Data Recording Capacity | 2000 Records |

Product Details

| Code | Item Description |
|-----------|------------------------------------|
| 01-01-401 | 110v Pegasus, with barcode scanner |
| 01-01-402 | 230v Pegasus, with barcode scanner |
| 01-01-295 | CalderSafe® Mobile Weld Analyser |
| 01-01-162 | Steel case |

Calder Pegasus™ HC

The Calder Pegasus HC gives you functionality, reliability and affordability, capable of welding all conventional brands of fittings up to 630mm. Featuring a protective hard case, automatic fitting recognition, barcode scanning and manual data entry options, this welder is built to last.

Protective Hard Case

Duo Terminal Option Available

FEATURES

- Barcode scanning and manual time entry
- Fitting size range 20-630mm Ø
- 4m output lead
- Choice of terminal sizes
- Data recording of 2,000 welds
- CalderSafe® Weld Data Analyser
- Simple symbolic display
- Terminal adapters supplied

OPTIONAL

- Automatic coupling recognition Fusamatic / Plasson
- Control Point - Blue Box Data Technology
- Double insulation
- CalderSafe® Mobile Weld Analyser
- Dual sized output terminals

Technical Specification

| | |
|-------------------------------------|-------------------------------|
| Coupling Size Range | 20-630mm Ø |
| Dimensions [HxWxL] | 500 x 350 x 280mm |
| Weight | 30kg |
| Case Material | ABS Plastic |
| Mains Input Cable Length | 10m |
| Fusion Output Cable Length | 4m |
| Input Voltage | 110v or 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 30A (110v) / 16A (230v) |
| Input Power | 3.3kVA (110v) / 2.8kVA (230v) |
| Output Voltage [Vac RMS] | 8-48v |
| Output Current [Continuous Aac RMS] | 60A |
| Environmental Protection | IP55 |
| Data Recording Capacity | 2000 Records |

Product Details

| Code | Item Description |
|-----------|--|
| 01-01-450 | 110v Pegasus HC, with barcode scanner and protective hard case |
| 01-01-451 | 230v Pegasus HC, with barcode scanner and protective hard case |
| 01-01-295 | CalderSafe® Mobile Weld Analyser |

Calder Connexion® Blue

ISO

The Calder Connexion Blue is a cost effective solution for electrofusion welding of fittings up to 630mm. A fully manual machine, the Connexion Blue is simple to use and built to always deliver.

Duo Terminal Option Available

FEATURES

- Manual time entry
- Fitting size range 20-630mm Ø
- 4m output lead
- Choice of terminal sizes
- Large character display
- Terminal adapters supplied

OPTIONAL

- Steel tool case

Technical Specification

| | |
|-------------------------------------|-------------------------|
| Coupling Size Range | 20-630mm Ø |
| Dimensions [HxWxL] | 380 x 280 x 250mm |
| Weight | 24kg |
| Case Material | ABS Plastic |
| Mains Input Cable Length | 5m |
| Fusion Output Cable Length | 4m |
| Input Voltage | 110v or 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 30A (110v) / 16A (230v) |
| Input Power | 3kW |
| Output Voltage [Vac RMS] | 8-48v |
| Output Current [Continuous Aac RMS] | 60A |
| Environmental Protection | IP54 |

Product Details

| Code | Item Description |
|-----------|---------------------|
| 01-01-601 | 110v Connexion Blue |
| 01-01-602 | 230v Connexion Blue |
| 01-01-155 | Steel case |

SBOX Max

ISO

The SBOX Max Electrofusion Welder gives you functionality, reliability and is capable of welding any brand of electrofusion fittings for gas, water and other pressure pipe applications up to 630mm, and uses Fusamatic, barcode and manual entry for the input of fusion data.

FEATURES

- Barcode scanning and manual time entry
- Automatic coupling recognition Fusamatic / Plasson
- Fitting size range 20-630mm Ø
- Up to 100,000 joint records on internal SD card
- Choice of terminal sizes
- Data recording of 2,000 welds
- Scratch resistant polycarbonate display
- Multiple language options available

OPTIONAL

- Control Point - Blue Box Data Technology
- CalderSafe® Mobile Weld Analyser

Technical Specification

| | |
|-------------------------------------|-------------------|
| Coupling Size Range | 20-630mm Ø |
| Dimensions [HxWxL] | 300 x 220 x 290mm |
| Weight | 17kg |
| Case Material | Coated Steel |
| Mains Input Cable Length | 3m |
| Fusion Output Cable Length | 2.5m |
| Input Voltage | 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 16A |
| Input Power | 3kW |
| Output Voltage [Vac RMS] | 10-48v |
| Output Current [Continuous Aac RMS] | 60A |
| Environmental Protection | IP54 |
| Data Recording Capacity | 2000 Records |

Product Details

| Code | Item Description |
|-----------|-------------------------------------|
| SBOXMAX | 240v SBOX Max |
| SBOXMAXBC | 240v SBOX Max, with barcode scanner |

Calder Centaur

ISO

The Calder Centaur has been designed to meet the industry's needs with manual and barcode data entry and weld data recording. The unit is constructed of aluminium incorporated with a cable storage facility and can be fitted with GPS location as an optional feature.

Duo Terminal Option Available

FEATURES

- Barcode scanning and manual time entry
- Automatic coupling recognition Fusamatic / Plasson
- Fitting size range 20-630mm Ø
- Data recording up to 702 welds
- 4 x 20 large character display
- Choice of terminal sizes

OPTIONAL

- GPS Location
- CalderSafe® Mobile Weld Analyser

Technical Specification

| | |
|-------------------------------------|-------------------------|
| Coupling Size Range | 20-630mm Ø |
| Dimensions [HxWxL] | 380 x 280 x 250mm |
| Weight | 23kg |
| Case Material | Cast Aluminium |
| Mains Input Cable Length | 4m |
| Fusion Output Cable Length | 4m |
| Input Voltage | 110v or 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 30A (110v) / 16A (230v) |
| Input Power | 3kW |
| Output Voltage [Vac RMS] | 8-48v |
| Output Current [Continuous Aac RMS] | 60A |
| Environmental Protection | IP54 |
| Data Recording Capacity | 702 Records |

Product Details

| Code | Item Description |
|-----------|---|
| 01-01-181 | 110v Calder Centaur, with barcode scanner |
| 01-01-183 | 230v Calder Centaur, with barcode scanner |
| 01-01-155 | Steel case |
| 01-01-295 | CalderSafe® Mobile Weld Analyser |

Calder Connexion® Red

ISO

The Calder Connexion Red welder is a powerful and reliable machine capable of welding all brands of fittings up to 630mm. It features data recording and offers automatic fitting recognition, barcode scanning and manual data entry.

Duo Terminal Option Available

FEATURES

- Barcode scanning and manual time entry
- Automatic coupling recognition Fusamatic / Plasson
- Fitting size range 20-630mm Ø
- Fixed or detachable output lead
- Voltage sensing technology
- Choice of terminal sizes
- Data recording of 702 welds
- 4 x 20 large character display
- Multiple language options available

OPTIONAL

- Steel tool case

Technical Specification

| | |
|-------------------------------------|-------------------------|
| Coupling Size Range | 20-630mm Ø |
| Dimensions [HxWxL] | 380 x 280 x 250mm |
| Weight | 24kg |
| Case Material | Cast Aluminium |
| Mains Input Cable Length | 5m |
| Fusion Output Cable Length | 4m |
| Input Voltage | 110v or 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 30A (110v) / 16A (230v) |
| Input Power | 3kW |
| Output Voltage [Vac RMS] | 8-48v |
| Output Current [Continuous Aac RMS] | 60A |
| Environmental Protection | IP54 |
| Data Recording Capacity | 702 Records |

Calder Proxima

The Calder Proxima Electrofusion welder is packed with all the capabilities required for any gas and water project installing HDPE fittings up to 1000mm. With three welding modes Fusamatic, barcode and manual, there's no limit to the brand of fittings you use.

Duo Terminal Option Available

FEATURES

- Barcode scanning and manual time entry
- Automatic coupling recognition Fusamatic / Plasson
- Fitting size range 20-1000mm Ø
- Fixed or detachable output lead
- Voltage sensing technology
- Choice of terminal sizes
- Data recording up to 702 weld records
- 4 x 20 large character display
- Multiple language options available

OPTIONAL

- Point of weld recordable GPS location
- CalderSafe® Mobile Weld Analyser

Technical Specification

| | |
|-------------------------------------|-------------------------|
| Coupling Size Range | 20-1000mm Ø |
| Dimensions [HxWxL] | 360 x 330 x 350mm |
| Weight | 26kg |
| Case Material | ABS / Aluminium |
| Mains Input Cable Length | 5m |
| Fusion Output Cable Length | 4m |
| Input Voltage | 110v or 230v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 30A (110v) / 16A (230v) |
| Input Power | 3kW |
| Output Voltage [Vac RMS] | 8-48v |
| Output Current [Continuous Aac RMS] | 60A |
| Environmental Protection | IP54 |
| Data Recording Capacity | 702 Records |

Product Details

| Code | Item Description |
|-----------|---|
| 01-01-060 | 110v Proxima Sirius (manual input only) |
| 01-01-061 | 230v Proxima Sirius (manual input only) |
| 01-01-074 | 110v Proxima Centaur, with barcode scanner |
| 01-01-075 | 230v Proxima Centaur, with barcode scanner |
| 01-01-063 | 110v Proxima Taurus, 40/80v 2 x detachable output leads |
| 01-01-162 | Steel case |
| 01-01-295 | CalderSafe® Mobile Weld Analyser |

Calder Aquafuse AF160

The Aquafuse AF160 is a small size, easy to use hand held welder for all non-pressure drainage pipe applications. It provides reliable welding and is suitable for fittings manufactured by Akatherm, Valsir, Coes, Gerberit, Wavisolo and other manufacturers.

** Not for use for conventional electrofusion fittings.*

FEATURES

- Hand held
- Fitting size range 16-160mm Ø
- Constant current secondary output
- Soft touch case bag
- Lightweight
- Simple to use

Technical Specification

| | |
|--------------------------|-------------------|
| Coupling Size Range | 16-160mm Ø |
| Dimensions [HxWxL] | 250 x 115 x 100mm |
| Weight | 3kg |
| Case Material | ABS Plastic |
| Input Voltage | 230v |
| Input Frequency | 50-60Hz |
| Max. Input Current | 5A |
| Power Consumption | 1150VA |
| Environmental Protection | IP57 |

Product Details

| Code | Item Description |
|-----------|--|
| 01-01-096 | 230v Calder Aquafuse AF160, with soft touch case bag |

Calder Aquafuse AF315 110v

The Aquafuse AF315 110v is a simple to use welder made for 110v primary power supplies and designed for all non-pressure drainage pipe applications. It provides reliable welding for HDPE fittings manufacturers including Akatherm, Valsir, Coes, Gerberit and Wavisolo.

** Not for use for conventional electrofusion fitting.*

FEATURES

- Automatic recognition of fittings
- Fitting size range 16-315mm Ø
- Constant current secondary output
- Colour coded output cables
- High strength casing
- Contains 110v to 230v transformer
- Simple to use

Technical Specification

| | |
|----------------------------|-------------------|
| Coupling Size Range | 16-315mm Ø |
| Dimensions [HxWxL] | 385 x 275 x 215mm |
| Weight | 23kg |
| Case Material | ABS Plastic |
| Mains Input Cable Length | 4m |
| Fusion Output Cable Length | 2m |
| Input Voltage | 110v |
| Input Frequency | 40-60Hz |
| Max. Input Current | 30A |
| Input Power | 3300VA |
| Environmental Protection | IP57 |

Product Details

| Code | Item Description |
|-----------|---|
| 01-01-042 | 110v Calder Aquafuse AF315 |
| 01-01-055 | 40-160mm Ø connecting pigtail set (Black) for Waviduo |
| 01-01-056 | 200-315mm Ø connecting pigtail set (Blue) for Akatherm, Eurofusion, Wavisolo |
| 01-01-057 | 40-160mm Ø connecting pigtail set (Yellow) for Akatherm, Coes, Eurofusion, Gerberit |
| 01-01-058 | 200-315mm Ø connecting pigtail set (Red) for Gerberit |
| 01-01-059 | 40-160mm Ø output lead (Green) for Wavisolo |
| 01-01-162 | Steel case |

Calder Aquafuse AF315

Caldertech's Aquafuse AF315 is a simple to use welder for all non-pressure drainage pipe applications. It provides reliable welding for a range of HDPE fittings manufacturers including Akatherm, Valsir, Coes, Gerberit and Wavisolo.

** Not for use for conventional electrofusion fitting.*

FEATURES

- Automatic recognition of fittings
- Fitting size range 16-315mm Ø
- Constant current secondary output
- Colour coded output cables
- High strength casing
- Lightweight
- Simple to use

Technical Specification

|-------------|--|
| 01-01-098 | 230v Calder Aquafuse AF315 |
| 304.00.0101 | 40-160mm Ø connecting pigtail set (Yellow) for Akatherm, Coes, Gerberit, Valsir, Waviduo |
| 304.00.0102 | 200-315mm Ø connecting pigtail set (Blue) for Akatherm, Wavisolo, Valsir |
| 304.00.0103 | 200-315mm Ø connecting pigtail set (Red) for Gerberit |
| 304.00.0104 | 200-315mm Ø connecting pigtail set (Green) for Von Roll |
| 304.00.0105 | 200-315mm Ø connecting pigtail set (Black) for Coes |
| 304.00.0106 | Link lead for co-joining multiple couplers, max. total size 160mm Ø |

Electrical Input Plugs

Our welding machines can be adapted to fit the specific electrical outlet plug for your country or region as per global standards.

Type A / NEMA 1-15

Voltage: 100-127v

Mainly Used: USA, Canada, Mexico, Central America, Japan

Type B / NEMA 5-15

Voltage: 100-127v

Mainly Used: USA, Canada, Mexico, Central America, Japan

Type C / CEE 7/16

Voltage: 220-240v

Mainly Used: Europe (except UK, Ireland, Cyprus and Malta), Asia, South America

Type D

Voltage: 220-240v

Mainly Used: India, Nepal

Type E / CEE 7/7

Voltage: 220-240v

Mainly Used: France, Belgium, Poland, Slovakia, Czech Republic, Tunisia, Morocco

Type F / CEE 7/4

Voltage: 220-240v

Mainly Used: Germany, Austria, Netherlands, Sweden, Finland, Norway, Portugal, Spain, Eastern Europe

Type G / BS 1363

Voltage: 220-240v

Mainly Used: UK, Ireland, Cyprus, Malta, Malaysia, Singapore, Hong Kong

Type H

Voltage: 220-240v

Mainly Used: Israel, Palestine

Type I

Voltage: 220-240v

Mainly Used: Australia, New Zealand, Papua New Guinea, China, Argentina

Type J / SEC 1011

Voltage: 220-240v

Mainly Used: Switzerland, Liechtenstein

Type K / DS 60884-2-D1

Voltage: 220-240v

Mainly Used: Denmark, Greenland

Type L / CEI 23-16/VII

Voltage: 220-240v

Mainly Used: Italy, Chile

Type M

Voltage: 220-240v

Mainly Used: South Africa,
Swaziland, Lesotho

Type N

Voltage: 100-240v

Mainly Used: Brazil, South Africa

Industrial Type / BS 4343 110v

Voltage: 100-130v

Mainly Used: UK

Industrial Type / BS 4343 230v

Voltage: 200-250v

Mainly Used: UK

Butt Fusion Welding Machines

An Introduction to Our Automatic Butt Fusion Machines

Our range of automatic butt welding machines have been designed and developed for use on gas and water pressure polyethylene pipe networks.

The best possible control of the joining process is achieved through an integral computer in the machines which control and monitor all jointing parameters: time, temperature, pressure, movement and sequence.

The welding process will not continue if any of these parameters are not within the limits specified by the selected welding standard. Designed and manufactured to meet or exceed GIS/PL2-3:2015 and ISO 12176-1:2017.

The Do's and Don'ts of Automatic Butt Fusion

Pre Jointing Checks

- Use equipment that is in good condition, regularly maintained and is within recommended calibration/service period.
- Ensure the correct jointing parameters for the particular machine and pipe are understood and correctly selected.
- Ensure that the generator is in good condition and sufficient fuel is available.
- Check that the heater plate faces are clean, wash only when cold with clean water and dry with a lint free cloth or paper towel.
- Check that the pipe end trimmer is clean and the cutting plates are not chipped or damaged, and in the correct position for the required pipe size.
- Ensure that the clamps, liners and securing screws are of the correct size.
- Ensure joining standard is up to date.

Do's

- Always input correct operator and job code where requested to assist in traceability.
- Always use a weld shelter and where possible a ground board or sheet.
- Check the size SDR and pipe material for compatibility.
- Ensure that the pipes are aligned correctly and supported on pipe support rollers to reduce drag.
- Cover pipe ends to prevent wind chill to the heater and joint interface.
- Clean the pipe surfaces inside and out, clean the pipe ends and inside of the machine clamps before fitting the pipe into the machine.
- Wherever possible position pipes into the clamps with markings to the top and aligned.
- Wash the heater plate with water immediately prior to every welding session and perform dummy welds when hot to remove any fine particles and prevent the production of fumes.
- Carry out one dummy weld on pipe sizes up to 180mm and 2 dummy welds to sizes above.
- Always perform dummy welds after changing pipe size or if the heater plate has been allowed to cool.

- A continuous ribbon of material of full wall thickness should be produced from both pipe ends before starting the feathering operation.
- Always store the heater and trimmer in a stand when not in the machine.
- Where necessary remove the external bead with a bead removal tool from the completed joint, bag, mark with the joint number and retain for quality inspection.

Don'ts

- Never attempt to use equipment unless adequately trained to do so.
- Don't attempt to weld pipes of incompatible materials or SDR.
- Don't leave swarf inside pipes or on the chassis.
- Don't introduce dirt onto trimmed pipe ends whilst removing swarf.
- Don't touch trimmed pipe or fitting ends.
- Don't remove welded pipes from the machine before the cooling time has elapsed.
- Don't try to cut corners in any part of the welding process.
- Don't attempt to install the pipe until the joint is fully cool.

Health and Safety

- Never touch a heater plate unless you are absolutely sure it is cold (for cleaning purposes only).
- Avoid contact with the trimmer blades when cleaning.
- When the trimmer is in motion the blades can cause serious injury.
- Don't attempt to operate the trimmer while it is out of the chassis or attempt to by-pass the safety switch
- When machine is in operation, keep hands away from the pipe ends, chassis, trimmer and heater.
- The requirements of manual handling regulations should be adhered to when moving heavy pipes
- An audible alarm is fitted to automatic butt welding machines to give a warning prior to impending movement of the chassis and pipes, the sounding of this should never be ignored and everyone must stand clear.
- Only generators with a centre tapped earth (ground) 55-0-55 or 110-0-110 should be used.
- Adequate personal protection equipment (PPE) should be worn whilst operating a butt welding machine, this should include safety boots/shoes gloves, goggles/glasses, ear defenders etc.

Gator 2

Automatic Butt Fusion Machine

Globally recognised as the market leader in butt jointing equipment, the Gator 2 manufactured by our sister company Fusion Equipment, is one of the most efficient, robust and reliable machines in the world, providing 100% successful joints time after time.

A truly automatic machine, the Gator 2 leaves nothing to chance and ensures quality jointing from the first joint of the day to the last.

FEATURES

- 21 internationally approved butt welding standards including ISO 21307 and fittings capability
- Manufactured to ISO 12176 part 3 and part 4 compliant
- Electronic trim stops protect against over trimming
- Large backlit display with simple user multilingual interface
- Fast clamp system to improve productivity
- Quick quarter turn heater and trimmer fasteners
- Data recording of 2,000 weld records
- High quality electrohydraulic pump, motor, valves and control circuit

OPTIONAL

- Control Point - Blue Box Data Technology
- CalderSafe® Mobile Weld Analyser
- Reducing shells, bar code scanner, thermal printer

Put simply, the best fully automatic butt fusion machine in the world.

The Gator 2 Control Panel

Continuously Monitored

| | |
|--|-------------------|
|  | Temperature |
|  | Movement |
|  | Pressure |
|  | Time |
|  | Trimmer Current |
|  | Heater Continuity |
|  | Pipe Slippage |
|  | Oil Level |

FULLY AUTOMATIC FEATURES

1. Machine sequencing
2. Trim and feathering cycle
3. Pipe slippage check
4. Peak and dynamic drag measurement
5. Heater plate temperature control
6. Initial bead up distance control
7. Heater retraction
8. Pressure control at bead up, soak, fusion, and cool time
9. Out of specification early warnings

OPERATOR CONTRIBUTION

1. Input pipe, operator details and project details
2. Inspect and approve trim

PREPROGRAMMED PARAMETERS

1. 21 internationally approved welding standards containing specified: Heater Temperatures, Fusion Pressures, Soak Times and Cooling Times
2. Data management systems
3. Diagnostic routines

Welda 2

Butt Fusion Machine

ISO

UK manufactured by Fusion Equipment, the Welda 2 range of semi-automatic butt fusion machines are robust, powerful and packed with quality and safety features to join pipes up to 400mm.

Featuring a fast clamping mechanism, electronically regulated heater temperature, replaceable heater surface plates and a compact design, these machines make the fusion process easy and guarantee performance every time.

FEATURES

- Pipe size range 63-400mm Ø
- Fast clamping
- Lightweight compact machine
- Toolless repositionable 3rd clamp
- Heater pull off mechanism
- Large easy to read pressure gauge
- 150 bar operating system
- Trimmer safety switch
- Electronically regulated heater temperature
- Replaceable heater surface plates
- Non-drip quick release hydraulic connections
- Heater and trimmer stand

OPTIONAL

- Reducing shells
- Stub flange adapter
- Bevel shells for short spigot fitting

Robust, powerful and packed with quality and safety features.

Welda 500 Butt Fusion Machine

ISO

The Welda 500 is a powerful butt fusion machine packed with quality and safety features enabling a single operator to complete 500mm butt fusion joints with minimum effort.

The fast and controlled ejection of the heater plate and trimmer ensures efficiency and higher quality joints while promoting safe working; and when used with a pipe lifter, minimises manual lifting.

Stub Flange Adapter

Compact Trolley

FEATURES

- Pipe size range 250-500mm Ø
- Swing in/out heater and trimmer
- One person quick and safe operation
- Single unit: No heater and trimmer stands
- Repositionable 3rd clamp
- Heater pull off mechanism
- Large easy to read pressure gauge
- Trimmer safety switch
- Electronically regulated heater temperature
- Replaceable heater surface plates
- Non-drip quick release hydraulic connections

OPTIONAL

- Reducing shells, trim set bar, stub flange adapter
- Compact trolley and winch kit

| 01-10-113 | 75 x 55mm Ø clamp, with jaws |
| 01-10-114 | 55 x 40mm Ø jaw set only (4 pcs) |
| 01-10-117 | 63 x 90mm Ø jaw set only (4 pcs) |
| 01-10-112 | 75 x 55mm Ø jaw set only (4 pcs) |
| 01-10-118 | 125 x 110mm Ø jaw set only (4 pcs) |

Superclamp Mega

FEATURES

- Pipe range 63-125mm Ø
- Multi size clamps in one
- Can be used for straight and reducing couplers

Product Details

| Code | Item Description |
|----------|--------------------------------|
| 53MB0101 | 63, 75, 90, 110, 125mm Ø clamp |

Spacemaker Positioning Clamp

FEATURES

- Pipe range 63-125mm Ø
- Perfect for narrow trench applications
- Integral angle maker and re-rounding capabilities

Product Details

| Code | Item Description |
|-----------|---|
| 01-15-200 | 63-125mm Ø clamp, without reducing shells, with bag |
| 01-15-006 | 125-63mm Ø reducing shell set (4 pcs) |
| 01-15-016 | 125-75mm Ø reducing shell set (4 pcs) |
| 01-15-005 | 125-90mm Ø reducing shell set (4 pcs) |
| 01-15-210 | 125-110mm Ø reducing shell set (4 pcs) |

Reducing shells available in 2, 4 and 6 piece sets.

Joint Master Multi Size Positioning Clamp

FEATURES

- Pipe range 63-180mm Ø
- Self centering design requires no reducing shells
- Minimal excavation required, fits above pipe joint easily

Product Details

| Code | Item Description |
|-----------|--|
| 01-09-003 | 63-180mm Ø 2 way clamp, straight base |
| 01-09-004 | 63-180mm Ø clamp, 500mm angle maker |

Mini Pillar Type Pressure Clamp

FEATURES

- Pipe range 32-40mm Ø
- Designed for tapping saddles
- Compact and easy to use

Product Details

| Code | Item Description |
|-----------|---|
| 01-12-004 | 32mm Ø Elgev top loading pillar clamp |
| 01-12-008 | 32mm Ø Kimplas top loading pillar clamp |

Pillar Type Kick Under Pressure Clamp for Top Loading Saddles

FEATURES

- Pipe range 63-250mm Ø
- Minimal excavation required
- Low profile base

Product Details

| Code | Item Description |
|-----------|--|
| 01-12-005 | 63-250mm Ø top loading kick under clamp |
| 01-12-007 | 63-250mm Ø top loading swivel kick under clamp |

Pillar Type Pressure Clamp for Top Loading Saddles

FEATURES

- Pipe range 63-250mm Ø
- Turnability allows use in restricted space
- Large under pipe support

Product Details

| Code | Item Description |
|-----------|-------------------------------------|
| 01-12-001 | 63-250mm Ø top loading pillar clamp |

Pillar Type Low Profile Pressure Clamp for Top Loading Saddles

FEATURES

- Pipe range 63-400mm Ø
- Branch saddle adapter foot available
- Low profile under pipe entry

Product Details

| Code | Item Description |
|-----------|--|
| 01-12-015 | 63-250mm Ø top loading low profile clamp |
| 01-12-016 | 63-400mm Ø top loading low profile clamp |

Webbing Strap Mounted Clamp for Top Loading Saddles

FEATURES

- Pipe range 63-500mm Ø / 63-630mm Ø
- Branch saddle adapter foot available
- Self locking non-slip cam design

Product Details

| Code | Item Description |

| Code | Item Description |
|----------|---------------------|
| 53MY0001 | 355mm Ø pipe roller |

H Pattern Pipe Roller 400-710mm

FEATURES

- Pipe range 400-710mm Ø
- Closing feet for easy storage
- Variable height up to 510mm

Product Details

| Code | Item Description |
|----------|-------------------------|
| 53MY0002 | 400-710mm Ø pipe roller |

Pipe Lifter 400mm

FEATURES

- Pipe range up to 400mm Ø
- Helps avoid bead damage during butt welding
- Solid build and easy to use

Product Details

| Code | Item Description |
|-------------|---------------------|
| PIPELIFT400 | 400mm Ø pipe lifter |

Pipe Towing Heads and Adapters

Squeeze Off Tooling

Mini Size Squeeze Tool

FEATURES

- Pipe range 0-32mm Ø
- Lightweight and compact
- Easy to carry

Product Details

| Code | Item Description |
|-----------|----------------------------|
| 02-31-002 | 0-32mm Ø mini squeeze tool |

Dogs Bone Squeeze Tool

FEATURES

- Pipe range 16-32mm Ø
- Compact design
- Easy to carry

Product Details

| Code | Item Description |
|-----------|---------------------------------------|
| 02-31-003 | 16-32mm Ø dogs bone mini squeeze tool |

Pocket Size Squeeze Tools

FEATURES

- Pipe range 20-42mm Ø
- Lightweight and compact
- Easy to carry

Product Details

| Code | Item Description |
|-----------|---|
| 02-31-001 | 20-42mm Ø pocket size squeeze tool |
| 02-31-011 | 20-42mm Ø pocket size squeeze tool, stainless steel |
| 02-31-007 | Pocket size squeeze tool hex drive type (bright zinc plate, hexagon nut) |
| 02-31-008 | Pocket size squeeze tool hex drive type (bright zinc plate, 20mm tee bar) |

Heavy Duty Squeeze Tool 16-32mm

FEATURES

- Pipe range 16-32mm Ø
- Buffer stop plates
- Robust double loop construction

Product Details

| Code | Item Description |
|-----------|--|
| 02-31-004 | 16, 20, 25, 32mm Ø heavy duty squeeze tool |

Heavy Duty Squeeze Tool 20-63mm

FEATURES

- Pipe range 20-63mm Ø
- Buffer stop plates
- Robust double loop construction

Product Details

| Code | Item Description |
|-----------|---|
| 02-31-201 | (20-32), 40, 50, 63mm Ø SDR11 ↔ heavy duty squeeze tool |
| 02-31-202 | 20, 25, 32, 40, 50, 63mm Ø SDR11 ↔ heavy duty squeeze tool |
| 02-31-204 | 20, 25, 32, 40, 50, 63mm Ø SDR17 ↔ heavy duty squeeze tool |
| 02-31-209 | 20, 25, 32, 40, 50, 63mm Ø SDR11/17 ↔ heavy duty squeeze tool |
| 02-31-208 | 20, 25, 32, 40, 50, 63mm Ø SDR11/17/26 ↔ heavy duty squeeze tool |
| 02-31-205 | 20, 25, 32, 40, 50, 63mm Ø SDR11 ↔ heavy duty squeeze tool, with bottom bar chain |
| 02-31-206 | 20, 25, 32, 40, 50, 63mm Ø SDR17 ↔ heavy duty squeeze tool, with bottom bar chain |

Super Heavy Duty Squeeze Tool 20-63mm

FEATURES

- Pipe range 20-63mm Ø
- Buffer stop plates and removable tommy bar
- Robust double loop construction

Product Details

| Code | Item Description |
|-----------|--|
| 02-31-401 | (20-32), 40, 50, 63mm Ø SDR11 ↔ super heavy duty squeeze tool |
| 02-31-207 | 20, 25, 32, 40, 50, 63mm Ø SDR11 ↔ super heavy duty squeeze tool |
| 02-31-402 | 20, 25, 32, 40, 50, 63mm Ø SDR17.6 ↔ super heavy duty squeeze tool |

Heavy Duty Squeeze Tool 63-125mm

FEATURES

- Pipe range 63-125mm Ø
- Buffer stop plates
- Robust double loop construction

Product Details

| Code | Item Description |
|-----------|--|
| 02-31-801 | 63, 90, 110mm Ø SDR11 ↔ + 90, 110, 125mm Ø SDR17.6 ↔ heavy duty squeeze tool |
| 02-31-803 | 63, 75, 90, 110, 125mm Ø SDR21 ↔ heavy duty squeeze tool |
| 02-31-804 | 63, 75, 90, 110, 125mm Ø SDR17.6 ↔ heavy duty squeeze tool |

Iron Man Hydraulic Squeeze Tool 63-125mm

FEATURES

- Pipe range 63-125mm Ø
- Hydraulically assisted
- Buffer stop plates

Product Details

| Code | Item Description |
|-----------|---|
| 02-31-810 | 63, 75, 90, 110, 125mm Ø SDR11 ↔ squeeze tool, with pump |
| 02-31-811 | 63, 90, 110, 125mm Ø SDR11/17.6 ↔ squeeze tool, with pump |
| 02-31-820 | 63, 75, 90, 110, 125mm Ø SDR11/17.6 ↔ squeeze tool, with pump |
| 02-31-815 | 63, 75, 90, 110, 125mm Ø SDR17 ↔ squeeze tool, with pump |
| 02-31-812 | Iron man hydraulic pump only |

Heavy Duty Hydraulic Squeeze Tool 63-180mm

FEATURES

- Pipe range 63-180mm Ø
- 15 tonne Weber jack
- Stop pins and external retractor springs

Product Details

| Code | Item Description |
|-----------|---|
| 02-31-604 | 63, 90, 110, 125, 140, 160, 180mm Ø SDR11 ↔ squeeze tool, Weber jack |
| 02-31-602 | 63, 90, 110, 125, 140, 160, 180mm Ø SDR11/17 ↔ squeeze tool, Weber jack |
| 02-31-606 | 63, 90, 110, 125, 140, 160, 180mm Ø SDR11/17/21 ↔ squeeze tool, home jack |
| 02-31-605 | 63, 90, 110, 125, 140, 160, 180mm Ø SDR17 ↔ squeeze tool, Weber jack |
| 02-31-601 | 63, 90, 125, 180mm Ø SDR11/17.6 ↔ squeeze tool, Weber jack |
| 02-31-607 | 63, 90, 125, 180mm Ø SDR11/17.6 ↔ squeeze tool, home jack |
| 02-31-628 | Spare buffer stop plate 63, 75, 90, 110, 125, 140, 160, 180mm Ø SDR11 ↔ (1 piece) |

| | |
|-----------|---|
| 02-31-627 | Spare buffer stop plate 63, 75, 90, 110, 125, 140, 160, 180mm Ø SDR17 ↔ (1 piece) |
| 02-31-629 | Spare buffer stop plate UK 63, 90, 125, 180mm Ø SDR11/17 ↔ (1 piece) |
| 02-31-625 | Spare jack operating tubular handle (1 piece) |

Heavy Duty Hydraulic Squeeze Tool 63-200mm

FEATURES

- Pipe range 63-200mm Ø
- 15 tonne Weber jack
- Stop pins and external retractor springs

Product Details

| Code | Item Description |
|-----------|--|
| 02-31-650 | 63, 75, 90, 110, 125, 140, 160, 180, 200mm Ø SDR11 ↔ squeeze tool, Weber jack |
| 02-31-652 | 63, 75, 90, 110, 125, 140, 160, 180, 200mm Ø SDR11/17 ↔ squeeze tool, Weber jack |
| 02-31-651 | 63, 75, 90, 110, 125, 140, 160, 180, 200mm Ø SDR17 ↔ squeeze tool, Weber jack |
| 02-31-660 | Spare buffer stop plate 63-200mm Ø SDR11 ↔ (1 piece) |
| 02-31-664 | Spare buffer stop plate 63-200mm Ø SDR13.6 ↔ (1 piece) |
| 02-31-661 | Spare buffer stop plate 63-200mm Ø SDR17 ↔ (1 piece) |
| 02-31-662 | Spare buffer stop plate 63-200mm Ø SDR17.6 ↔ (1 piece) |
| 02-31-663 | Spare buffer stop plate 63-200mm Ø SDR21 ↔ (1 piece) |

Heavy Duty A Frame Hydraulic Squeeze Tool 160-250mm

FEATURES

- Pipe range 160-250mm Ø
- 25 tonne lightweight jack
- Single unit operation

Product Details

| Code | Item Description |
|-----------|--|
| 02-31-701 | 160, 180, 200, 225, 250mm Ø SDR11/17 ↔ squeeze tool, with jack |
| 02-31-702 | 160, 180, 200, 225, 250mm Ø SDR11/17/26 ↔ squeeze tool, with jack |
| 02-31-710 | Spare jack handle, with M8 socket key |
| 02-31-714 | Spare buffer stop plate 160-250mm Ø SDR17 ↔ (1 piece) |
| 02-31-715 | Spare buffer stop plate 160-250mm Ø SDR11 ↔ (1 piece) |
| 02-31-716 | Spare leak check lock pin with plastic clip (1 piece) |
| 02-31-717 | Spare M20 safety screwed long thread (1 piece) |
| 02-31-718 | Spare 25 tonne jack control valve |
| 02-31-720 | Spare jack safety lock collar |
| 02-31-722 | Spare 25 tonne hydraulic jack pre drilled |
| 02-31-723 | Spare external retractor spring (1 piece) |
| 02-31-724 | Spare frame loop leg with lifting handle |

Hydraulic Squeeze Tool X4 180-250mm

FEATURES

- Pipe range 180-250mm Ø
- Detachable locking squeeze bars
- Two stage hydraulic hand pump for speed and power

Product Details

| Code | Item Description |
|-----------|---|
| 02-31-750 | 180-250mm Ø hydraulic squeeze tool, 1 set of detachable closure bars, 1 set of safety stops |
| 02-31-751 | Spare pipe closure bars, with lock screws |
| 02-31-752 | Spare Lock screws set (2 pcs) |
| 02-31-753 | Spare hydraulic cylinder with hydraulic couplings |
| 02-31-754 | Spare hydraulic pump with hydraulic couplings |
| 02-31-755 | Air over hydraulic intensifier unit 110v |
| 02-31-756 | Air over hydraulic intensifier unit 230v |
| 02-31-761 | Safety stops 180mm Ø SDR11 ↔ (2 pcs) |
| 02-31-762 | Safety stops 200mm Ø SDR11 ↔ (2 pcs) |
| 02-31-763 | Safety stops 225mm Ø SDR11 ↔ (2 pcs) |
| 02-31-764 | Safety stops 250mm Ø SDR11 ↔ (2 pcs) |
| 02-31-766 | Safety stops 180mm Ø SDR17 ↔ (2 pcs) |
| 02-31-767 | Safety stops 200mm Ø SDR17 ↔ (2 pcs) |
| 02-31-768 | Safety stops 225mm Ø SDR17 ↔ (2 pcs) |
| 02-31-769 | Safety stops 250mm Ø SDR17 ↔ (2 pcs) |

Air Over Hydraulic Intensifier Unit

Safety Stops

Safety Stops

Hydraulic Dismountable Squeeze Tool 250-315mm

FEATURES

- Pipe range 250-315mm Ø
- Fully dismountable for easy transportation
- Easily assembled on pipe

Product Details

| Code | Item Description |
|-----------|---|
| 02-31-901 | 250-315mm Ø dismountable squeeze tool, without safety stops |
| 02-31-909 | Jack space piece 250mm Ø and below |
| 02-31-908 | Jack space piece 280mm Ø and above |
| 02-31-930 | Safety stops 200mm Ø SDR11 ↔ (2 pcs) |
| 02-31-935 | Safety stops 225mm Ø SDR11 ↔ (2 pcs) |

| 02-31-920 | Safety stops 280mm Ø SDR21 ↔ (2 pcs) |
| 02-31-921 | Safety stops 315mm Ø SDR21 ↔ (2 pcs) |

Other safety stops available upon request.

Squeeze Off Applied Witness Tape

Product Details

| Code | Item Description |
|-----------|-----------------------------|
| 06-62-050 | 75mm x 33m squeeze off tape |

Barrier Pipe Tooling

Surprep ProtectaLine® 1, 32-110mm

FEATURES

- Pipe range 32-110mm Ø
- Single scrape operation
- Quick release for easy removal from pipe

Product Details

| Code | Item Description |
|-----------|---|
| 01-07-070 | 32-110mm Ø ProtectaLine 1 barrier removal tool, mandrels, scraping tip |
| 01-07-081 | 90-110mm Ø SDR17 ↔ ProtectaLine 1 barrier removal tool kit, with red tool box |
| 01-07-071 | 90-110mm Ø handtool only |
| 01-07-073 | 25mm Ø mandrel insert |
| 01-07-074 | 32mm Ø mandrel insert |
| 01-07-075 | 63mm Ø mandrel insert |
| 01-07-076 | 90-110mm Ø mandrel insert |
| 01-07-175 | 63mm Ø garter spring set |
| 01-07-176 | 90-110mm Ø garter spring set |
| 01-07-080 | Spare scraping tip |

Surprep ProtectaLine® 1, 125-180mm

FEATURES

- Pipe range 125-180mm Ø
- Single scrape operation
- Quick release for easy removal from pipe

Product Details

| Code | Item Description |
|-----------|---|
| 01-07-072 | 125-180mm Ø ProtectaLine 1 barrier removal tool, mandrels, scraping tip |
| 01-07-082 | 125, 160, 180mm Ø SDR17 ↔ ProtectaLine 1 barrier removal tool kit, with blue tool box |
| 01-07-077 | 125mm Ø SDR17 ↔ mandrel insert |
| 01-07-078 | 125-160mm Ø SDR17 ↔ mandrel shells set (4 pcs) |
| 01-07-079 | 160-180mm Ø SDR17 ↔ mandrel shells set (4 pcs) |
| 01-07-177 | 125mm Ø garter spring set |
| 01-07-080 | Spare scraping tip |

SDR11 also available upon request.

Surprep ProtectaLine® 2, 225-355mm

FEATURES

- Pipe range 225-355mm Ø
- Dual pass operation
- Quick release for easy removal from pipe

Product Details

| Code | Item Description |
|-----------|--|
| 01-07-251 | 225-355mm Ø ProtectaLine 2 barrier removal tool, mandrels, with tool box |
| 01-07-285 | 225mm Ø SDR11 ↔ mandrel insert |
| 01-07-286 | 250mm Ø SDR11 ↔ mandrel insert |
| 01-07-287 | 280mm Ø SDR11 ↔ mandrel insert |
| 01-07-288 | 315mm Ø SDR11 ↔ mandrel insert |
| 01-07-289 | 355mm Ø SDR11 ↔ mandrel insert |

| 01-07-277 | Spare scraping tip |
| 01-07-280 | Steel tool box |

Surprep ProtectaLine® 3, 400-630mm

FEATURES

- Pipe range 400-630mm Ø
- Dual pass operation
- Quick release for easy removal from pipe

Product Details

| Code | Item Description |
|-----------|---|
| 01-07-291 | 400-630mm Ø ProtectaLine 3 barrier removal tool, mandrels, with bag |
| 01-07-292 | 400mm Ø SDR17 ↔ mandrel insert, with bag |
| 01-07-293 | 450mm Ø SDR17 ↔ mandrel insert, with bag |
| 01-07-294 | 500mm Ø SDR17 ↔ mandrel insert, with bag |
| 01-07-295 | 560mm Ø SDR17 ↔ mandrel insert, with bag |
| 01-07-296 | 630mm Ø SDR17 ↔ mandrel insert, with bag |

Scraping Tip Assemblies

Surprep Puriton® Barrier Removal Kit

FEATURES

- Pipe range 90-180mm Ø
- Dual pass operation, designed for Radius Puriton pipe
- Quick release for easy removal from pipe

Product Details

| Code | Item Description |
|-----------|---|
| 01-07-190 | 90-110mm Ø SDR11/17 ↔ Puriton kit, 2 scraping tip assemblies, with red tool box |
| 01-07-198 | 125, 160, 180mm Ø SDR11 ↔ Puriton kit, 2 scraping tip assemblies, extension piece, with blue tool box |
| 01-07-191 | 125, 160, 180mm Ø SDR17 ↔ Puriton kit, 2 scraping tip assemblies, extension piece, with blue tool box |
| 01-07-193 | 90-110mm Ø conversion kit, standard tip assemblies |
| 01-07-194 | 125, 160, 180mm Ø conversion kit, 2 scraping tip assemblies, extension piece |
| 01-07-192 | Puriton scraping tip with spot assembly |
| 01-07-195 | 125, 160, 180mm Ø extension only |
| 01-07-196 | 90-110mm Ø cartridge only |
| 01-07-197 | 125-160-180mm Ø cartridge only |
| 01-07-043 | Spare standard tip 11mm Ø |

Strap and Butt Weld Plate

ProFuse® Protective Skin Removal Tool

FEATURES

- Pipe range 180-630mm Ø
- Designed for Radius ProFuse pipe
- Saddle patch and pipe end removal

Product Details

| Code | Item Description |
|-----------|---|
| 01-07-103 | 180-630mm Ø ProFuse tool only |
| 01-07-104 | 180-630mm Ø ProFuse tool kit, strap and butt weld plate |
| 01-07-111 | 250mm Ø ProFuse small size plastic tool |
| 01-07-150 | Butt weld plate |
| 01-07-151 | Bead gauge for butt welded joints SDR21 |
| 01-07-044 | Spare cutting blade |

Water Tooling

Venturi Jet Drainer

FEATURES

- Fast and cost efficient
- No priming required
- Use with single tool compressor

Product Details

| Code | Item Description |
|-----------|--------------------------------|
| 03-48-007 | Venturi jet excavation drainer |

Syphon Lift Pump

FEATURES

- Designed for draining gas syphon points
- Does not require electrical supply
- Corrosion free brass construction

Product Details

| Code | Item Description |
|-----------|------------------------------------|
| 03-48-006 | 1" BSP connection syphon lift pump |

Hog Light Duty Draining Pump

FEATURES

- Lightweight plastic construction
- Delivery pipe included
- Simple one man operation

Product Details

| Code | Item Description |
|-----------|--|
| 03-45-004 | 4 foot x 2" Ø x 1 1/2" outlet hog pump |
| 03-45-008 | 4 foot x 1 1/2" Ø x 3/4" outlet hog pump |

Drain and Gully Cleaning Scoop

FEATURES

- Hygienic removal of soiled waste

Product Details

| Code | Item Description |
|-----------|---|
| 03-44-023 | Gully scoop standard with retaining vanes |
| 03-44-003 | Gully scoop standard |
| 03-44-004 | Gully scoop narrow |

Drain and Gully Cleaning Tongs

FEATURES

- Hygienic removal of syringes and soiled waste

Product Details

| Code | Item Description |
|-----------|--|
| 03-44-001 | Cleaning tongs with square capture plates |
| 03-44-005 | Cleaning tongs with pointed capture plates |

Drain and Gully Cleaning Grab

FEATURES

- Spherical grabbing bowl for removal of syringes and waste

Product Details

| Code | Item Description |
|-----------|--|
| 03-44-018 | Cleaning grab 1.5m length x 80mm bowl |
| 03-44-020 | Cleaning grab 1.0m length x 80mm bowl |
| 03-44-014 | Cleaning grab 2.0m length x 200mm bowl |

Litter Picker

FEATURES

- Easy one handed operation for removal of paper and solids

Product Details

| Code | Item Description |
|-----------|--------------------------------------|
| 03-44-016 | Litter picker C jaw type 1.0m length |
| 03-44-019 | Litter picker C jaw type 1.5m length |

Multi Headed Box Lid and Floor Grate Lifting tool

FEATURES

- Multi size heads
- Rotating head
- Telescopic

Product Details

| Code | Item Description |
|-----------|---|
| 03-43-049 | Multi headed box lid and floor grate lifting tool |

Talbot Push Fit Fittings Extractor Shims

FEATURES

- Designed for releasing Talbot push fit fittings
- Solid metal construction

Product Details

| Code | Item Description |
|-----------|---|
| 04-77-149 | 20mm Ø Talbot fittings extractor shim (1 piece) |
| 04-77-150 | 25mm Ø Talbot fittings extractor shim (1 piece) |
| 04-77-151 | 32mm Ø Talbot fittings extractor shim (1 piece) |
| 04-77-154 | 40mm Ø Talbot fittings extractor shim (1 piece) |
| 04-77-152 | 50mm Ø Talbot fittings extractor shim (1 piece) |
| 04-77-153 | 63mm Ø Talbot fittings extractor shim (1 piece) |

Gas Tooling

Gas Service Pipe Test Piece

FEATURES

- Comes with valve and nozzle
- Testing from service

Product Details

| Code | Item Description |
|-----------|--|
| 04-68-007 | 20, 25, 32mm Ø gas service pipe tester |

Stub Type Test Piece

Anaconda Type Test Piece

Meter Box Test Pieces

FEATURES

- Come with valve and nozzle
- Testing pressure of gas when working on meter boxes

Product Details

| Code | Item Description |
|-----------|------------------------------------|
| 04-68-001 | Meter box stub type test piece |
| 04-68-002 | Meter box anaconda type test piece |

Steel Service Pressure Tester for Wask

FEATURES

- Supplied complete with valves
- Simple operation

Product Details

| Code | Item Description |
|-----------|-------------------------|
| 04-68-003 | ¾" steel tee test piece |

Tapping Saddle Test Piece

FEATURES

- Designed to suit specific fitting manufacturer and outlet size
- Lightweight and supplied complete with tee assembly

Product Details

| Code | Item Description |
|-----------|--|
| 04-68-008 | 32mm Ø Radius tapping saddle screw type test piece |

| | |
|-----------|---|
| 04-68-010 | 32mm Ø GF+ tapping saddle screw type test piece |
| 04-68-051 | 32mm Ø GF+ tapping saddle screw type (M) service outlet test piece |
| 04-68-052 | 32mm Ø GF+ tapping saddle screw type, swivel design test piece |
| 04-68-009 | 32mm Ø Durafuse / Frialen tapping saddle screw type test piece |
| 04-68-024 | 32mm Ø Durafuse MV tapping saddle screw type, test piece |
| 04-68-023 | 32mm Ø Durafuse Multi Fit 225-315mm tapping saddle screw type test piece |

| 04-68-022 | 32mm Ø Kimplast tapping saddle screw type test piece |
| 04-68-011 | 63mm Ø Radius tapping saddle screw type test piece |
| 04-68-016 | 63mm Ø GF+ tapping saddle screw type test piece |
| 04-68-020 | 63mm Ø Durafuse tapping saddle screw type test piece |
| 04-68-004 | Tapping saddle multi tester, with tee assembly |
| 04-68-006 | Tapping saddle multi tester |

2 Part Air Pressure Testing Manifold (Test Stand Pipe)

FEATURES

- Approved for use on UK Gas Network
- Colour coded components
- Comes with calibration certificate

Product Details

| Code | Item Description |
|-----------|---|
| 04-67-004 | Test pressure standpipe common base only (yellow) |
| 04-67-008 | Test standpipe low pressure top assembly 0.385 bar (pressure and serial n° marked) (orange) |
| 04-67-009 | Test standpipe medium pressure top assembly 3.3 bar (pressure and serial n° marked) (blue) |
| 04-67-010 | Test standpipe high pressure top assembly 7.7 bar (pressure and serial n° marked) (red) |

Standpipe Common Base

Purge Hose

FEATURES

- 10 metre hose for purging gas pipe
- Comes with flame arrester

Product Details

| Code | Item Description |
|-----------|---|
| 04-61-301 | ¾" x 10m purge hose, flame arrester |
| 04-61-308 | ¾" x 10m purge hose, 1" elbow, flame arrester |
| 04-61-304 | 1" x 10m purge hose, flame arrester |
| 04-61-305 | 2" x 10m purge hose, flame arrester |

Gas Safety Vents

FEATURES

- Made for temporary and permanent flammable gas venting
- Weather hood available for ¾" BSP safety vent

Product Details

| Code | Item Description |
|-----------|--|
| 04-61-302 | ¾" BSP safety vent, without weather hood |
| 04-61-303 | 1" BSP safety vent, with weather hood |
| 04-61-306 | 2" BSP safety vent, with weather hood |

Purge Stack

FEATURES

- For purging of gas main
- Comes with flame arrester

Product Details

| Code | Item Description |
|-----------|---|
| 04-61-307 | 1" x 2.5m purge stack, flame arrester (2 parts) |
| 04-61-310 | 2" x 2.5m purge stack, flame arrester night cap |
| 03-61-313 | Purge stack support stand |

Purge Stack Support Stand

Mini Crimping Tool Wask Pattern

FEATURES

- Iron tool for the rapid construction of a crimp joint
- Metal to metal stop for accurate joint construction

Product Details

| Code | Item Description |
|-----------|---------------------------|
| 04-76-001 | 16mm Ø wask crimping tool |
| 04-76-002 | 20mm Ø wask crimping tool |
| 04-76-003 | 25mm Ø wask crimping tool |
| 04-76-004 | 32mm Ø wask crimping tool |

Mini Crimping Tool AVK Pattern

FEATURES

- Simple to operate with replaceable parts
- Kit supplied in a hard plastic case

Product Details

| Code | Item Description |
|-----------|---|
| 04-77-600 | 20, 25, 32mm Ø AVK crimping tool kit, hex drive |
| 04-77-602 | 16mm Ø AVK crimping tool shells |
| 04-77-603 | 20mm Ø AVK crimping tool shells |
| 04-77-604 | 25mm Ø AVK crimping tool shells |
| 04-77-601 | 32mm Ø AVK crimping tool body assembly |

Plug Lifter for Wask

FEATURES

- Operates internal plug of 2" top service tee safely and without the escape of gas
- Zinc plated

Product Details

| Code | Item Description |
|-----------|------------------|
| 04-76-052 | 2" plug lifter |

Continuity Links

FEATURES

- High voltage tested
- 10mm tri-rated cable

Product Details

| Code | Item Description |
|-----------|--|
| 05-15-005 | 1.0m continuity link for water meter installations |
| 05-15-002 | 1.0m continuity link, with crocodile clips |
| 05-15-001 | 1.2m continuity link, with end chains |
| 05-15-006 | 1.2m continuity link, with 48" end chains |
| 05-15-003 | 7.5m continuity link, with end chains |
| 05-15-004 | 10.0m continuity link, with end chains |
| 05-15-007 | 10.0m continuity link, with crocodile clips |

Steel Pipe Tooling

Cutter Wheel and Axle Spin

Calder Hinged Steel Pipe Cutting Tool

FEATURES

- Cuts ductile iron, cast iron and steel pipes
- Strong, robust design
- 4 wheel design for 90° rotation

Product Details

| Code | Item Description |
|-----------|--|
| 06-61-213 | 2 ½"-4" Ø steel pipe cutter |
| 06-61-214 | 4"-6" Ø steel pipe cutter |
| 06-61-215 | 6"-8" Ø steel pipe cutter |
| 06-61-216 | 8"-12" Ø steel pipe cutter |
| 05-14-012 | Spare cutter wheel universal ½"-2 ½" Ø |
| 05-14-013 | Spare cutter wheel universal 2 ½"-4" Ø |
| 05-14-014 | Spare cutter wheel universal 4"-12" Ø |
| 05-14-016 | Spare cutter wheel axle pin ½"-4" Ø |
| 05-14-017 | Spare cutter wheel axle pin 4"-12" Ø |

Iron Pipe Bursting Wedge

FEATURES

- Made from solid steel
- Simple and effective to use
- Easy to carry

Product Details

| Code | Item Description |
|-----------|---------------------------|
| 05-13-408 | ⅝" pattern bursting wedge |
